Wella Eng

Turning challenges into training that helps others

Wella Eng was dealing with serious challenges when she came into the Mental Health Peer Specialist Training Program. She had been incarcerated, suffered from depression, and had been hospitalized for mental health

issues. During subsequent outpatient therapy, a peer counselor told Wella about LaGuardia's program that was specifically geared towards training people with lived experience with mental health challenges to become mental health peer support workers. Despite some trepidation on her part, and then almost not getting accepted into the program due to her former incarceration, she took a leap of faith and jumped in. Wella thrived in the program, delving into all the topics (including technology training) and using her own experience and skills

that she had developed through therapy to inform what she was learning in class. After recently completing an internship with Institute for Community Living, Wella was offered employment there as a Peer Counselor, where she says she uses much of the training she received through the program.

"The lasting impact that this program gave me was first getting in the door of an agency as an ex-convict," says Wella. "I was denied by different agencies or organizations because of my background at least 3-4 times. But with the help of the Mental Health Peer Specialist program at LaGuardia, I prevailed and that helped me land this position that I now really enjoy, assisting the homeless. Success at last!"
